Documentation of the *Anti-Semitism and the Criticism of Israel (ASCI) survey*²

Abstract: The present paper documents the questionnaire and results of a survey in Germany, with data collected during June – November 2010. Using probabilistic item response models, the survey analyzes the structure of anti-Semitic, anti-Zionist, anti-Israeli and anti-Palestinian attitudes and studies how they are distributed in the German population. It reconstructs the mental models according to which participants make meaning of the Israeli-Palestinian conflict, it differentiates between different forms of Israel-criticism and it investigates the effect of participants' human rights orientation on anti-Semitic, anti-Zionist, anti-Israeli and anti-Palestinian attitudes, as well as moral disengagement and pacifism, knowledge about the Israeli-Palestinian conflict, and the way how participants position themselves to the conflict.

Due to the complexity of the survey and the limited space available in peer-reviewed journals, it will be published in a series of articles, each of them focusing on theory, methodology and results of another aspect of the study – and even there, it will not be possible to report all of the statistical details that are reported here in an uncommented way.

Part I: Introduction

After the defeat of the Third Reich, it was no longer acceptable in the German public to openly express racist and anti-Semitic attitudes, but anti-Semitism did not entirely disappear from Germany. Due to a communication taboo on anti-Semitic utterances (Bergmann & Erb, 1986), anti-Semitism was instead camouflaged in various ways. The taboo on airing anti-Semitic prejudices in public coexists alongside continued private expressions of anti-Semitic attitudes in closed circles of friends and acquaintances.

Scholars working in the field of anti-Semitism research, therefore, distinguish among various facets of modern anti-Semitism (Bergmann & Erb, 1991a,b; Frindte, 2006; Heyder, Iser & Schmidt, 2005; Schönbach, 1961), ranging from traditional prejudice (manifest anti-Semitism) via secondary anti-Semitism and latent anti-Semitism to anti-Zionism and anti-Semitic criticism of Israel: *Manifest or classical anti-Semitism* refers to the open defamation of Jews as Jews. *Secondary anti-Semitism* refers to the ways Germans deal with the Nazi past, the Holocaust and the question of guilt and responsibility. *Latent anti-Semitism* refers to attempts to avoid publicly talking about Jews. *Anti-Zionism* consists in a rejection of Israel's (alleged) Zionist state ideology, and *anti-Semitic criticism of Israel* is assumed to employ criticism of Israel's politics as a medium in which anti-Semitic contents can be presented in a socially acceptable manner.

The coexistence of a public prohibition of anti-Semitism with private expressions of anti-Semitism is referred to by Bergmann & Erb (1986) as "communication latency." They understand this as a functional latency that served to protect the structure of the West German social system both inwardly and outwardly. On the one side, it constituted a fundamental precondition for the integration of post-war West Germany into the West, and, on the other side, it contributed to "the precarious construction of new structures of both an institutional and ideological sort" (Bergmann & Erb, 1986, 228), i.e., to the democratization of not only the West German state, but also of its society and citizens.

Since German unification, the situation seems to have changed, however. A continuing series of assaults, such as the desecration of Jewish cemeteries, violence against asylum seekers, murders of citizens with an immigrant background, and attacks on Jewish rabbis, supports the conclusion that racism and anti-Semitism have increased in violence, while at the same time the communication taboo for racist attitudes below the threshold of violence is losing force. At the latest since September 11, 2001, racist attitudes are being directed in particular against Muslims and, in this direction of attack, have become socially acceptable. This is shown e.g. by the widespread acceptance that Thilo Sarrazin's (2010) book *Deutschland schafft sich ab* (Germany is abolishing itself) has found in broad segments of the German population.

The communication taboo for racist contents appears to have been broken, and to be sure not only for anti-Muslim, but also for anti-Semitic contents, as, e.g., is shown by the unrestrained use of anti-Semitic clichés (e.g. "Holocaust Bonus") by critics of the Gaza war. Simultaneously, and as a sort of counter-movement, however, criticism of Israel has lost societal acceptance, and in public discourse, the critics of Israel are increasingly being accused of anti-Semitism. The German parliamentary debate on the apparent anti-Semitism of the leftist political party Die Linke ("The Left" – cf. Melzer, 2011), media uproar about a (no doubt very naive) poem by Günther Grass (cf. Krell & Müller, 2012), and a controversy over Jakob Augstein, publisher of a leftist weekly newspaper, *Der Freitag*, are dramatic examples of this.

Although the increasing racism affects all of Germany, the socialization practiced in the old GDR is often blamed for it (e.g. Kahane, 2004), and, in particular with regard to criticism of Israel and anti-Semitism, not a few are convinced: "The danger threatens not from eternally backward-looking Nazi belchers, but rather from the left milieu" (Mattusek, 2013).

If we can believe the media and politicians, anti-Semitism is found only on the margins of society – and to be sure on the left margin as much as on the right. But what truth does this myth embody? Are anti-Zionism and criticism of Israel actually facets of anti-Semitism, or are they self-contained attitude dimensions, so that – besides anti-Semitism – they may be due to other motivations as well? And how is anti-Semitism actually distributed? Central aims of the ASCI-survey were to find answers to these questions, to make the first representative field study using probabilistic item-response models, to investigate how the various facets combine into individual attitude patterns, and to study how anti-Semitism is distributed in the German population. The present paper documents the results of the survey in an uncommented way.

1. The questionnaire

The questionnaire (see Appendix) consisted of four chapters:

1. *Demographic variables* including gender (sex), age, religion, religiousness, education, place of residence and preference of political parties.
2. *Questions concerning domestic and international conflicts in general* which intermixed the items of (a) the *Pacifism Scale* (PAZ, 6 items) by Cohrs et al. (2002), (b) a slightly modified version of the *Moral*

Disengagement Scale (MOR, 8 items) by Eckstein-Jackson & Sparr (2005) and (c) a *Human Rights Orientation Scale* (MERE, 8 items), to which the participants responded on a five-point Likert scale, ranging from complete disagreement to complete agreement.

3. *Questions concerning the Israeli-Palestinian conflict* which consisted of four subsections:

- "Questions about participants' personal relations to the conflict region" included the *Emotional Closeness Scale* (EMO, 9 items) by Kempf (2011).
- "Questions concerning participants' knowledge about the conflict" included the *Knowledge Test* (IQ, 6 items) by Kempf & Thiel (2012).
- "Questions concerning participants' assessment of the conflict" intermixed the items of the *Emotional Ambivalence Scale* (AMBI, 8 items) by Kempf (2011) with a slightly modified version of the *Positioning Scale* (POSI, 15 items) by Kempf (2011) and three subscales for the measurement of anti-Israeli attitudes: *One-sided Attribution of Guilt* (PI01, 3 items), *Dramatizing and Need for Action* (PI02, 3 items) and *Denying the Jews' Right of Residence* (IA2, 3 items).

To this part of the questionnaire participants responded on the same five-point Likert scale as above. Since the questions required a certain amount of knowledge about the Israeli-Palestinian conflict, however, "don't know" was added as an additional response category.

4. *Questions concerning the public dispute about Israelis, Palestinians, Jews and Arabs* which intermixed the items of

- three subscales for the measurement of manifest anti-Semitism – *Dislike of Jews* (MA1, 3 items), *Conspiracy Theory* (MA2, 3 items) and *Exclusion of Jews* (MA3, 3 items);
- three subscales for the measurement of secondary anti-Semitism – *Closing the Books on the Past* (SA1, 3 items), *Defense against Guilt* (SA2, 3 items)³ and *Perpetrator-victim Reversal* (SA3, 4 items); and
- a subscale for the measurement of latent anti-Semitism – *Avoiding to Speak about Jews* (LA, 3 items); with
- two subscales for the measurement of anti-Zionism – *Generalizing Criticism of Israel* (IA1, 3 items) and *Political Anti-Zionism* (PA, 3 items);
- three subscales for the measurement of anti-Palestinian attitudes – *Devaluation of Palestinians* (AP, 3 items), *Connecting Palestinians and Muslims to Terrorism* (TK, 3 items) and *Demonizing Islam* (IK, 4 items);
- and a single item that indicates a direct connection between criticism of Israel and anti-Semitism: "If we want to recognize the true face of the Jews, we need only see how they treat the Palestinians."

In this part of the questionnaire, we deviated from the usual response format. Instead of asking participants whether they agreed or disagreed with the various items, we told them that the questionnaire included statements that could be heard in heated controversies about the Israeli-Palestinian conflict and asked them to state on a five-point Likert scale whether they regarded the statements as *mere prejudice* or as *defensible opinions*.

Since people who hold anti-Semitic prejudices often deny their anti-Semitic character by claiming that they are legitimate political beliefs (Billig, 2001), and since agreement or disagreement with anti-Semitic statements can be strongly overlaid by social desirability, we expected that a lack of sensitivity to the prejudicial content of the statements should be a better indicator of whether and to what extent anti-Semitic prejudices continue to exist. The results of our pilot study confirmed these expectations (cf. Dengler, 2010a). Moreover, we also preferred the alternative format because of discourse-analytical considerations: Asking people to agree or disagree with anti-Semitic statements makes the statements appear as simply "statements like others," and thus may contribute to their dissemination. The alternative format avoids this danger. It enables participants to maintain greater distance from the statements and reduces the intrusiveness of the questionnaire.

A further advantage of the alternative format consists in the clarity with which the middle response category is to be interpreted. In the conventional response format, the answer "neither disagree nor agree" can be not just the result of a lack of any opinion, but also an expression of latent anti-Semitism.

³ Item analysis indicated that this scale does not measure anti-Semitism.

Which interpretation is correct in the concrete case is not immediately apparent. In the alternative response format, in contrast, the answer "partly both" (i.e. prejudice and defensible opinion) makes it clear that the respective statement is in part viewed as a legitimate political belief and thereby can be understood as expressing anti-Semitism. In the interpretation of the results we have therefore only interpreted scale values up to 2.7 as a rejection of the respective statement, and values between 2.8 and 3.2 as indicative of an anti-Semitic tendency (cf. Table 1, Figure 1).

| Scale points | Wording ⁴) |
|--------------|--|
| 1 | Prejudice |
| 2 | Rather prejudice |
| 3 | Partly both |
| 4 | Rather justifiable |
| 5 | Justifiable |
| Scale values | Interpretation with respect to anti-Semitism |
| 1,0 – 2,0 | Strong rejection |
| 2,1 – 2,7 | Rejection |
| 2,8 – 3,2 | Endorsement by trend |
| 3,3 – 3,9 | Endorsement |
| 4,0 – 5,0 | Strong endorsement |

⁴) Inverted items were coded the other way round: prejudice = 5; rather prejudice = 4; partly both = 3; rather justifiable = 2; justifiable = 1.

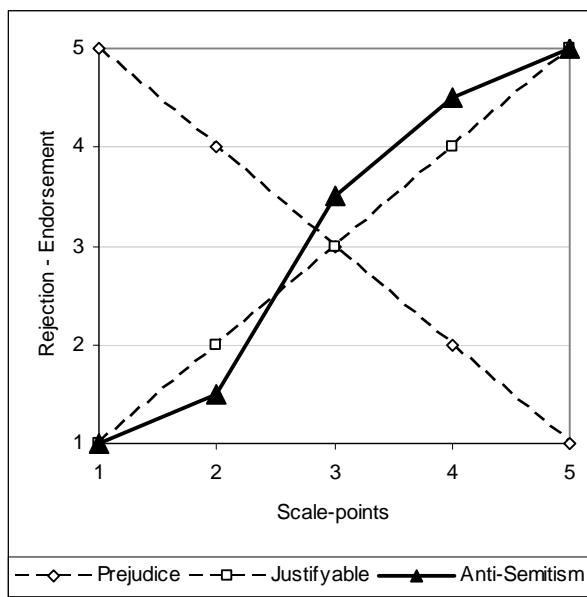

Table 1, Wording of the scale points and interpretation of scale values with respect to anti-Semitism.

Figure 1, The relation between anti-Semitic attitudes and the evaluation of anti-Semitic statements as prejudice or defensible opinion.

The construction of the various scales proceeded in several steps. Using data from a study by Petzold (2004), we first reanalyzed the anti-Semitism scales by Frindte, Funke & Jacob (1999), reformulated some of the items, designed new items and rearranged them into presumably homogeneous subscales. Simultaneously with these pre-studies (cf. Kempf, 2009, 2010), we also designed items for the other scales and produced a preliminary version of the questionnaire that we tested in a pilot study. On the basis of this study (cf. Dengler, 2010a; Kempf, 2011), we once again revised some of the items and produced the final version of the questionnaire that was used in the ASCI-survey. Based on the survey data, we then performed the final scale analyses and produced the results documented in this paper.

2. Sampling

Data were collected during the period between June and November 2010. The sample included a quota sample of $N = 998$ subjects, representative of Germany with respect to age, gender and school education. Half of the participants were chosen from an "old" state (Baden-Württemberg in Western Germany), and the other half from a "new" state (Thuringia in Eastern Germany). The age of the participants ranged from 15 to 92 ($M = 47,86$; $SD = 18,78$); 51.3% of them were female, and 48.7% were male. 25.2% had an *Abitur*⁴ or comparable school leaving diploma; 33.1% had a diploma from a *Realschule*⁵; 35.6% had a diploma from *Volksschule* (elementary school) or *Hauptschule* (junior high school); 3.9% were still in education, and 2.2% had no school leaving diploma. 94.9% were German citizens and 5.1% had another citizenship. 24.8% were Protestants, 24.1% Catholics and 6.0% belonged to another Christian religion; 2.9% were Muslims, 0.8% belonged to various other religions and 41.3% did not belong to any religion at all. 34.8% of the participants stated to be religious and 61.4% to be not.

Moreover, the total sample included $N = 243$ oversampled cases among which younger participants (under 30) with a good secondary school education (Abitur or comparable school leaving diploma) were over-represented, and $N = 464$ participants of an online survey, with which we succeeded on the basis of the "snowball principle" in locating more or less active critics of Israel. A total of 86.3% of the subjects of this subsample, in which older

⁴ Secondary-school leaving certificate (A levels) necessary for university admission in Germany.

⁵ Secondary modern school, whose diploma is *not* sufficient for admission to a German university.

subjects (over 55) were over-represented, had an Abitur or a comparable school leaving diploma, and a further 9.5% had at least a diploma from a Realschule. For some of the subscales we additionally drew on data from three experimental studies (Dengler, 2010b; Thiel, 2011, König, in print).

3. Data analysis

The results documented in this paper include:

1. Frequency counts of the item-responses in the total sample as well as the quota sample and its East- and West-German subsamples.
2. East-West-comparisons of the mean item responses (via t-tests for independent samples).
3. The establishment of ordinal homogeneity of the various subscales for manifest, secondary and latent anti-Semitism, anti-Zionism, anti-Israeli and anti-Palestinian attitudes, human rights orientation and moral disengagement via (first-order) Latent-Class-Analysis (LCA) and the inspection of the item profiles that display the expected item scores of the various classes.⁶
4. East-West comparisons of the mean subscale scores (via t-tests for independent samples).
5. First-order LCAs for reconstructing typical response patterns with respect to participants' emotional closeness to the Israeli-Palestinian conflict, their positioning to the conflict according to a pro-Israeli or pro-Palestinian war-frame or peace frame, and the perceived ambivalence of these frames for both of the parties in the conflict.
6. Second order LCAs for (a) determining the relation between ant-Semitic and anti-Zionist attitudes, (b) reconstructing typical patterns of anti-Israeli attitudes, (c) studying the relation between anti-Israeli and anti-Palestinian attitudes (d) reconstructing the mental models according to which participants interpret the Israeli-Palestinian conflict, and (e) studying the relation between anti-Semitism and the criticism of Israeli policy.
7. The study of demographic effects on anti-Semitic, anti-Zionist, anti-Israeli and anti-Palestinian attitudes, including (a) gender differences, (b) differences between age-groups, (c) differences between religions, (e) differences with respect to participants' religiousness, (e) differences with respect to participants' school education, differences with respect to participants' place of residence, and (f) differences with respect to participants' preference of political parties (via t-tests for independent samples or ANOVAs).
8. An investigation of participants' human rights orientation's effect on (a) anti-Semitic, anti-Zionist, anti-Israeli and anti-Palestinian attitudes, (b) moral disengagement, pacifism and participants' knowledge about the Israeli-Palestinian conflict (via ANOVAs), and (c) the way how they position themselves to the conflict (via Pearson Chi-Square).
9. The study of correlations between anti-Semitic, anti-Zionist, anti-Israeli and anti-Palestinian attitudes and a Principal-Components-Analysis (PCA) of the correlation matrix.

Computation of the LCAs was based on the total sample, and due to the large sample sizes, we selected the LCA models according to the Bayesian Information Criterion (BIC, Bozdogan, 1987). Only exception is the second-order LCA in chapter 11.5, where BIC would have suggested an 8-class solution, but – for theoretical reasons⁷ – the 9-class model was preferred.

The fit of the selected models was evaluated relative to the *a priori* distribution using the Proportional Reduction in Error Index (PRE; Goodman, 1972), and relative to the Pure Random Model⁸ using the Explanatory Power Index (EP; Kempf, 2012). The reliability of assigning participants to the identified latent classes was measured by mean membership probabilities (MEM).

First-order LCAs analyzed participants' *item-responses* with "no response" and (where applicable) "don't know"-responses as response categories of their own. In the computation of the *expected item-scores* within classes that are displayed in the item profiles, "no response" and "don't know" responses were dealt with as missing data. The identified classes were numbered according to the class sizes and (where applicable) ranked according to the *expected subtest-scores* within classes (= sum of the expected item-scores).

⁶ If each individual item of a subscale defines the same rank order among the identified classes, the item profiles must not be cross-cutting (cf: Rost, 1996; Kempf, 2012).

⁷ In our pilot study, we had found a pro-Israeli war-frame (cf. Kempf, 2011) which was not identified by the 8-class model of the survey data.

⁸ Since the Pure Random Model does not exist in the case of variable response categories, this index was not applied in case of the emotional closeness scale and the second-order LCAs.

Based on their membership-probabilities, participants were assigned the class number or (where applicable) the class rank of the most likely class as their individual *class membership* which served as data for the second-order LCAs, and (where applicable) the expected subtest score within this class was assigned as their individual *subtest score* which served as data for the computation of the subtest-profiles.

If the (first-order) LCAs had identified classes of non-responders and/or "don't-know"-responders, participants belonging to these classes were not included in the second-order LCAs. Only exceptions to this rule were (1) the reconstruction of mental models in chapter 11.4 where they were included as classes of their own, and (2) the positioning scale (POSI) in the study of relations between anti-Semitism and the criticism of Israeli policy in chapter 11.5 where the "no response" class and the "don't know" class were pooled together with the "neither-nor" class into a joint class of participants who take "no position" to the Israeli-Palestinian conflict. When including the ambivalence scale (AMBI) into second-order LCAs, class No. 1 and No.4 of the ambivalence scale were pooled into a joint class of "naïve pacifists".

East-West comparisons, the investigation of demographic and human-rights orientation effects and the study of correlations between anti-Semitic, anti-Zionist, anti-Israeli and anti-Palestinian attitudes were based on the representative quota-sample, and used participants' subtest scores as data. East-West comparisons were computed on the basis of their item responses as well.

Part II: Results

1. Manifest anti-Semitism

1.1 Subscale MA1: Dislike of Jews

1.1.1 Wording and frequency distribution of the item-responses

| MA1 | Dislike of Jews | Response category | Total sample | Quota samples | | |

7.2 Subscale MOR: Moral disengagement

7.2.1 Construction principle

| Moral disengagement process | Item |
|---|--|
| Euphemistic labeling | <u>mor01p:</u> With rapid, carefully planned military actions the central bases of hostile movements can be neutralized and collateral damage minimized. |
| Moral justification | <u>mor02ap:</u> It is irresponsible to abstain from the use of military force if it can make a contribution to world peace. |
| Dehumanization | <u>mor03p:</u> Terrorists are like pests in a field of grain – one must fight them without mercy. |
| Diffusion of responsibility | <u>mor04p:</u> If we are asked for military aid to end a conflict in a foreign country, I support German military deployments in the crisis region. |
| Minimizing, ignoring, or misconstruing the consequences | <u>mor05p:</u> In the struggle for peace, I find the deployment of armed troops justified if the deaths of innocent people are thereby prevented. |
| Displacement of responsibility | <u>mor06p:</u> If a soldier kills someone in a war, he is acting on military orders and thus bears no personal moral responsibility for his action. |
| Palliative comparison | <u>mor07p:</u> If peaceful means are unable to resolve a conflict, I regard the deployment of military intervention forces to be justified. |
| Attribution of blame | <u>mor08p:</u> If extremist political groupings are guilty of terrible crimes against mankind and serious human rights violations, they do not deserve to be spared militarily in any way. |

8.1.5 Class description

8.2 Subscale AMBI: Ambivalence of war and peace

8.2.1 Construction principle

| | | For Israelis | For Palestinians |
|-------------|-----------------|---|---|
| War frame | Offers security | ambi01i: With firm resolve and military strength, Israel's existence can be secured in the long term | ambi01p: Through persistent armed resistance a Palestinian state can be brought about by force |
| | Creates threat | ambi02i: As long as Israel tries to control the conflict by military means (alone), its population will be exposed to the constant threat of Palestinian violence | ambi02p: If the Palestinian leadership does not prevent the use of force, the Palestinians will not be allowed to found their own state |
| Peace frame | Offers security | ambi03i: The complete return of the occupied territories would make it possible for Israel to have an enduring peace with the Palestinians | ambi03p: A little more flexibility would make it possible for the Palestinians to have a lasting peace with Israel |
| | Creates threat | ambi04i: Returning to the borders of 1967 would represent a great security risk for Israel | ambi04p: A compromise with Israel would mean selling out Palestinian interests |

yes = M > 3; no = M < 3; ??? = n.s.; p = 0,05

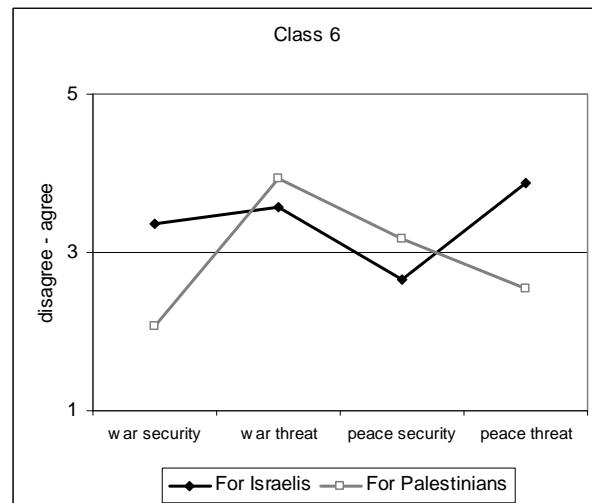

Mainly "don't know", but empathy for Israel's security dilemma

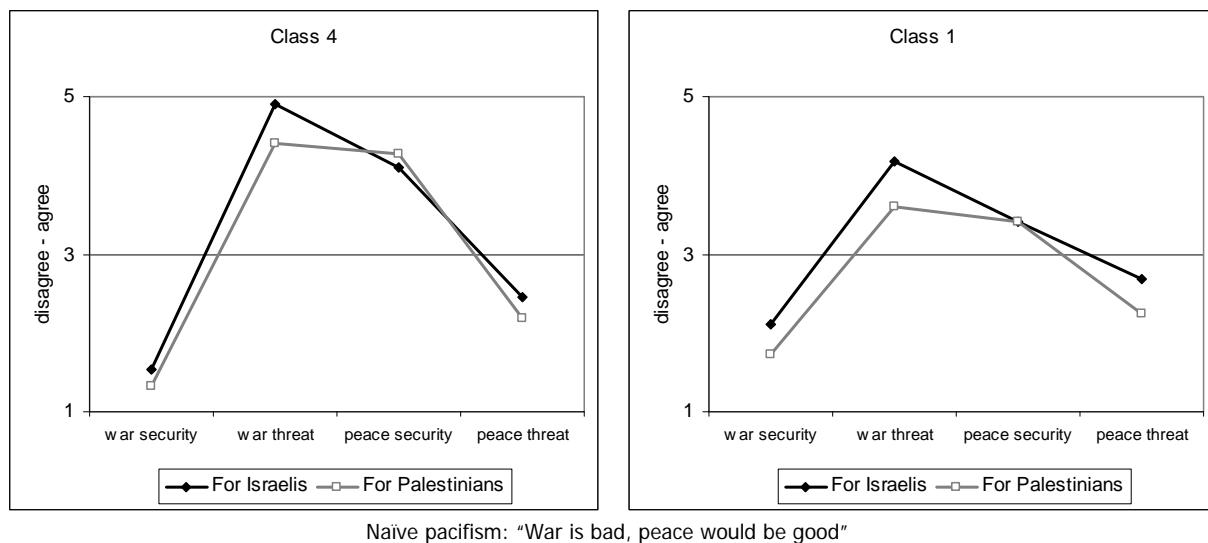

Preference of peace, but uncertain whether it could offer Israel security

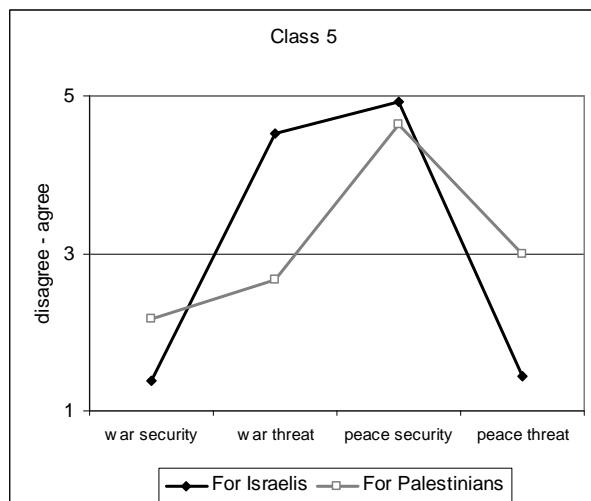

Ambivalence of peace for both sides

Though bad for Palestinians, status quo is as the lesser evil for Israel

Naive pacifism: "War is bad, peace would be good"

Preference of peace, but uncertain whether war is really so threatening for the Palestinians

8.3 Subscale POSI: Positioning to the Israeli-Palestinian conflict

8.3.1 Construction principle

| | Pro-Israeli | Pro-Palestinian |
|-----------------------------|---|---|
| Endorsement of peace | <p>npeace01: A solution to the Israeli-Palestinian conflict can only be found through negotiation.</p> <p>npeace02: The continued violence of the Israelis and Palestinians deepens the gulf between the two societies and leads to radicalization on both sides.</p> | |
| Accentuation of vital needs | <p>npeace03: A solution to the Israeli-Palestinian conflict must take account of the necessities of life of both populations.</p> <p>ipeace01: All the participants should work for the Israelis to be able to look forward to a peaceful future free of fear.</p> | <p>ppeace01: All the participants should work for the Palestinians to be able to lead a peaceful, self-determined life.</p> |

| | Pro-Israeli | Pro-Palestinian |
|-------------------------------------|--|---|
| Deployment of force | iwar01a: The Palestinian leadership should be forced to recognize Israel. | pwar01a: The Israeli government should be forced to recognize the rights of the Palestinians. |
| Criticism of opponent's policy | iwar02: The Palestinian leadership is not ready to make compromises and tries to impose its maximum aims without regard to losses. | pwar02: Israel is intransigent and tries to maintain existing conditions by the use of force. |
| Delegitimation of the opponent | iwar03: The goal of the Palestinian leadership is the destruction of Israel. | pwar03: The aim of Israeli policy is the continued oppression and disenfranchisement of the Palestinians. |
| Legitimation of own side's warfare | iwar04: The Israelis are conducting a legitimate defensive war against Palestinian terrorism. | pwar04: The Palestinians are conducting a legitimate war of liberation against the Israeli occupation. |
| Condemnation of opponent's violence | iwar05: Nothing can justify the Palestinian terror attacks against the Israeli population. | pwar05: Israel's military operations against the Palestinians are excessive and unjustified. |

Umgang mit Konflikten

Liebe Teilnehmerin, lieber Teilnehmer,

Immer wieder werden wir in unserem täglichen Leben mit vielfältigen Konflikten konfrontiert. Manche betreffen uns direkt, während wir von anderen nur aus der Zeitung, dem Radio oder dem Fernsehen erfahren. Unser Umgang mit solchen Konflikten ist dabei sehr individuell und hängt nicht zuletzt von unseren Einstellungen und Erfahrungen ab.

Mit dieser Untersuchung möchten wir Aufschluss darüber gewinnen, wie Menschen Konflikte wahrnehmen und beurteilen und welche Lösungsmöglichkeiten sie für die jeweilige Situation bevorzugen. In diesem Fragebogen werden Sie Fragen zu verschiedenen Formen von Konflikten vorfinden, die vielleicht nicht direkt mit Ihnen zu tun haben. Wir bitten Sie darum, jeweils anzugeben, welche der vorgeschlagenen Antworten am ehesten Ihre Meinung wiedergibt.

Bitte beantworten Sie die Fragen in der vorgegebenen Reihenfolge. Anmerkungen oder Kommentare dürfen Sie gerne an den Rand schreiben. Es wird vielleicht Fragen geben, die schwierig zu beantworten sind. Bitte versuchen Sie trotzdem zu antworten, denn es ist für die spätere Auswertung der Ergebnisse sehr wichtig, dass Ihr Fragebogen vollständig ist. Ihre Angaben werden vertraulich und völlig anonym behandelt und ausgewertet.

Wir danken Ihnen sehr herzlich für Ihre Teilnahmebereitschaft.

Bitte geben Sie hier eine Verschlüsselung nach dem folgenden Prinzip ein:

| | |
|---|-------|
| Die ersten zwei Buchstaben des Vornamens Ihrer Mutter (z.B. AN für Anna) | __ __ |
| Den Tag Ihrer Geburt (z.B. 04 für den 4. eines Monats) | __ __ |
| die ersten zwei Buchstaben des Vornamens Ihres Vaters (z.B. XA für Xaver) | __ __ |

1. Angaben zur Person

Zunächst bitten wir Sie, einige Angaben zu Ihrer Person zu machen. Bitte kreuzen Sie Zutreffendes an.

1. Alter

_____ Jahre

2. Geschlecht

- weiblich
- männlich

3. Familienstand

- ledig
- verheiratet / eheähnliche Gemeinschaft
- geschieden / getrennt lebend
- verwitwet

4. Staatsbürgerschaft

- deutsch
- eine andere, nämlich _____
- ich habe zwei Staatsbürgerschaften, nämlich _____ und _____
- ich habe keine Staatsbürgerschaft

5. Welche Sprache wird bei Ihnen zuhause überwiegend gesprochen?

- deutsch
- eine andere, nämlich _____
- deutsch und eine andere, nämlich _____

6. Religionszugehörigkeit

- evangelisch
- katholisch
- muslimisch
- eine andere, nämlich _____
- keine

7. Würden Sie sich als religiös bezeichnen?

- ja
- nein

8. Schulabschluss

- kein Schulabschluss
- Volks- /Hauptschulabschluss
- Realschulabschluss oder gleichwertiger Abschluss
- Abitur /Fachabitur oder gleichwertiger Abschluss

**9. Berufliche Ausbildung/(Fach-)Hochschulabschluss
(Bitte kreuzen Sie alle erreichten Abschlüsse an)**

- keinen Abschluss
- abgeschlossene Lehre/ Ausbildung
- berufsqualifizierender Schulabschluss (z.B. Fachschule, Berufsakademie etc.)
- abgeschlossenes Studium
- abgeschlossene Promotion

10. Sind Sie zurzeit erwerbstätig?

- ja, als Auszubildende/r
- ja, in einem Beruf der meiner Ausbildung entspricht
- ja, aber in einem Beruf, der meiner Ausbildung nicht gerecht wird
- nein, weil _____

11. Wie viel Geld steht Ihrem Haushalt monatlich zur Verfügung (vor Abzug von Miete, Strom, Telefon und anderen laufenden Kosten)?

- bis 500 €
- 500 bis unter 1000 €
- 1000 bis unter 1500 €
- 1500 bis unter 2000 €
- 2000 bis unter 2500 €
- 2500 bis unter 3000 €
- 3000 bis 4000 €
- mehr als 4000 €

12. Wie viele Personen leben von diesem Einkommen?

_____ Person/en

13. Wo leben Sie?

- in einer Stadt mit mehr als 1 Mio. Einwohner
- in einer Stadt mit 100.000 bis unter 1 Mio. Einwohner
- in einer Stadt mit 20.000 bis unter 100.000 Einwohner
- in einer Stadt mit 5.000 bis unter 20.000 Einwohner
- in einer Stadt mit unter 5.000 Einwohner
- in einem Dorf/auf dem Land

14. Wenn morgen Bundestagswahl wäre und Sie wahlberechtigt sind oder wenn Sie wahlberechtigt wären, welche Partei würden Sie wählen?

- CDU
- SPD
- FDP
- Bündnis 90/die Grünen
- Die Linke
- Eine andere, nämlich _____

2. Fragen zu inner- und zwischenstaatlichen Konflikten

Dieser Abschnitt befasst sich mit unterschiedlichen Stellungnahmen zu staatlicher bzw. militärischer Gewaltausübung. Wie denken Sie darüber?

| | Das lehne ich voll ab | Das lehne ich eher ab | Weder..., noch ... | Dem stimme ich eher zu | Dem stimme ich voll zu |
|---|-----------------------------|-----------------------------|--------------------------|---------------------------------|---------------------------------|
| Nur wer über militärische Stärke verfügt, kann bei internationalen Konflikten erfolgreich verhandeln. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Tötung und Folter können manchmal notwendig sein, um größeres Unheil abzuwenden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn wir um militärische Hilfe gebeten werden, um einen Konflikt im Ausland zu beenden, bin ich für Kampfeinsätze der Bundeswehr im Krisengebiet. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Im Kampf für den Frieden halte ich den Einsatz bewaffneter Truppen für gerechtfertigt, wenn der Tod unschuldiger Menschen vermieden wird. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| In schnellen und sauberen militärischen Aktionen können zentrale Stützpunkte feindlicher Bewegungen neutralisiert und Kollateralschäden minimiert werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn es ihm an demokratischer Reife mangelt, kann ein Volk auch nicht beanspruchen, dass es seine Geschicke selbst in die Hand nehmen darf. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Androhung militärischer Gewalt ist häufig die beste Möglichkeit, Terroristen und aggressive Staaten in Schach zu halten. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn der Staat die Würde einzelner Menschen verletzt, kann man nichts dagegen machen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Terroristen sind wie Schädlinge im Kornfeld - man muss ihnen schonungslos begegnen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn ein Soldat im Krieg jemanden tötet, handelt er im Auftrag von militärischen Befehlen und trägt folglich keinerlei persönliche moralische Verantwortung für sein Tun. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Man muss etwas dagegen unternehmen, dass Europa mitunter den Tod von Flüchtlingen in Kauf nimmt, um sich vor illegalen Zuwanderern zu schützen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Es ist unverantwortlich, auf den Einsatz militärischer Mittel zu verzichten, wenn dadurch ein Beitrag zum Frieden auf der Welt geleistet werden kann. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Es wird zu viel über die Rechte von Minderheiten geredet. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn sich extreme politische Gruppierungen grausamer Verbrechen gegen die Menschheit und schwerer Verletzungen der Menschenrechte schuldig gemacht haben, haben sie keine militärische Schonung verdient. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Krieg ist ein Verbrechen gegen das Leben und daher moralisch verwerflich. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn friedliche Mittel einen Konflikt nicht effektiv zu lösen vermögen, halte ich den Einsatz militärischer Interventionskräfte für gerechtfertigt. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Unser Staat sollte viel weniger Geld für Rüstung ausgeben. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Das Selbstbestimmungsrecht anderer Völker braucht uns nicht zu kümmern, weil jeder für sich selbst verantwortlich ist. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

| | Das lehne ich voll ab | Das lehne ich eher ab | Weder..., noch ... | Dem stimme ich eher zu | Dem stimme ich voll zu |
|---|-----------------------------|-----------------------------|--------------------------|---------------------------------|---------------------------------|
| Unter Umständen kann Krieg notwendig sein, um Gerechtigkeit zu wahren. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn das Allgemeinwohl in Gefahr ist, kann es notwendig sein, die Rechte von Minderheiten einzuschränken. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Manche Verbrechen sind so bestialisch, dass der Täter damit sein Recht auf eine würdevolle Behandlung verwirkt. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Krieg ist niemals gerechtfertigt. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

3. Israelisch-palästinensischer Konflikt

Der nächste Teil befasst sich mit einem Konflikt, über den wir immer wieder aus den Medien erfahren. Es geht um die Auseinandersetzung zwischen Israel und Palästina. Hier möchten wir nun gerne Ihren Bezug zu der Region, Ihre Landeskennnisse und Ihre persönliche Einschätzung dieses Konfliktes erfahren.

Fragen zu Ihrem persönlichen Bezug zu der Region

Wie würden Sie Ihre Kenntnis des israelisch-palästinensischen Konfliktes einschätzen?

- | | | | | |
|-----------------------------------|------------------------------|--------------------------------------|---------------------------------|--------------------------------------|
| <input type="checkbox"/> Sehr gut | <input type="checkbox"/> Gut | <input type="checkbox"/> Mittelmäßig | <input type="checkbox"/> Gering | <input type="checkbox"/> Sehr gering |
|-----------------------------------|------------------------------|--------------------------------------|---------------------------------|--------------------------------------|

Wie nahe geht Ihnen der Konflikt?

- | | | | | |
|-------------------------------|-----------------------------------|--------------------------------|------------------------------------|---------------------------------------|
| <input type="checkbox"/> Sehr | <input type="checkbox"/> Ziemlich | <input type="checkbox"/> Wenig | <input type="checkbox"/> Gar nicht | <input type="checkbox"/> Ist mir egal |
|-------------------------------|-----------------------------------|--------------------------------|------------------------------------|---------------------------------------|

Welcher Seite fühlen Sie sich mehr verbunden?

- | | | | |
|---------------------------------|------------------------------------|---|--|
| <input type="checkbox"/> Israel | <input type="checkbox"/> Palästina | <input type="checkbox"/> Beiden gleichermaßen | <input type="checkbox"/> Keinem von beiden |
|---------------------------------|------------------------------------|---|--|

Sind Sie schon einmal in Israel gewesen?

- | | | |
|-----------------------------------|---------------------------------|-----------------------------------|
| <input type="checkbox"/> Mehrmals | <input type="checkbox"/> Einmal | <input type="checkbox"/> Noch nie |
|-----------------------------------|---------------------------------|-----------------------------------|

Sind Sie schon einmal in den Palästinensergebieten gewesen?

- | | | |
|-----------------------------------|---------------------------------|-----------------------------------|
| <input type="checkbox"/> Mehrmals | <input type="checkbox"/> Einmal | <input type="checkbox"/> Noch nie |
|-----------------------------------|---------------------------------|-----------------------------------|

Haben Sie schon mal persönlichen Kontakt mit Israelis gehabt?

- | | |
|-----------------------------|-------------------------------|
| <input type="checkbox"/> Ja | <input type="checkbox"/> Nein |
|-----------------------------|-------------------------------|

Haben Sie schon mal persönlichen Kontakt mit Palästinensern gehabt?

- | | |
|-----------------------------|-------------------------------|
| <input type="checkbox"/> Ja | <input type="checkbox"/> Nein |
|-----------------------------|-------------------------------|

Haben Sie israelische Freunde, Bekannte oder Verwandte?

- | | |
|-----------------------------|-------------------------------|
| <input type="checkbox"/> Ja | <input type="checkbox"/> Nein |
|-----------------------------|-------------------------------|

Haben Sie palästinensische Freunde, Bekannte oder Verwandte?

- | | |
|-----------------------------|-------------------------------|
| <input type="checkbox"/> Ja | <input type="checkbox"/> Nein |
|-----------------------------|-------------------------------|

Fragen zu Ihren Landeskenntnissen – ein kleines Wissensquiz

Hier finden Sie einige Fragen zu Israel und Palästina. Bitte kreuzen Sie die richtigen Antworten an. Manche Fragen sind sehr speziell, lassen Sie sich bitte davon nicht abschrecken.

Welcher Prozentsatz der israelischen Bevölkerung ist jüdisch?

- | | |
|-----------------------------------|--|
| <input type="checkbox"/> Etwa 90% | <input type="checkbox"/> Etwa 25% |
| <input type="checkbox"/> Etwa 75% | <input type="checkbox"/> Ich weiß es nicht |
| <input type="checkbox"/> Etwa 50% | |

Für die arabischstämmigen Israelis gelten einige Besonderheiten. Welche der folgenden sind das? (Mehrfachnennungen möglich)

- | | |
|--|--|
| <input type="checkbox"/> Sie dürfen kein Land erwerben | <input type="checkbox"/> Sie dürfen keine Ministerposten besetzen |
| <input type="checkbox"/> Sie müssen nicht zur Armee | <input type="checkbox"/> Sie müssen einen erhöhten Steuersatz zahlen |
| <input type="checkbox"/> Sie dürfen keine Parteien gründen | <input type="checkbox"/> Ich weiß es nicht |

Welche der folgenden Gebiete werden derzeit von Israel besetzt? (Mehrfachnennungen möglich)

- | | |
|---|---|
| <input type="checkbox"/> Gaza-Streifen | <input type="checkbox"/> Teile des Westjordanlandes |
| <input type="checkbox"/> Golanhöhen | <input type="checkbox"/> Sinai-Halbinsel |
| <input type="checkbox"/> Das gesamte Westjordanland | <input type="checkbox"/> Ich weiß es nicht |

Seit wann sind diese Gebiete besetzt? (Mehrfachnennungen möglich)

- | | |
|--|--|
| <input type="checkbox"/> Seit dem Jom-Kippur-Krieg | <input type="checkbox"/> Seit dem Sechstagekrieg |
| <input type="checkbox"/> Seit der Staatsgründung | <input type="checkbox"/> Ich weiß es nicht |

| <input type="checkbox"/> Gründer der PLO | <input type="checkbox"/> Ich weiß es nicht |

Fragen zu Ihrer Einschätzung des Konflikts

| | Das lehne ich voll ab | Das lehne ich eher ab | Weder ..., noch | Dem stimme ich eher zu | Dem stimme ich voll zu | Weiß nicht |
|---|--------------------------------|--------------------------------|--------------------------|---------------------------------|---------------------------------|--------------------------|
| Eine Lösung des israelisch-palästinensischen Konfliktes kann nur auf dem Verhandlungsweg gefunden werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Rückkehr zu den Grenzen von 1967 würde für Israel ein großes Sicherheitsrisiko darstellen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die palästinensischen Terroranschläge gegen die israelische Bevölkerung können durch nichts gerechtfertigt werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Israel ist unnachgiebig und versucht, die bestehenden Verhältnisse mit Gewalt aufrecht zu erhalten. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Israelis führen einen legitimen Verteidigungskrieg gegen den palästinensischen Terrorismus. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Juden sind ein Fremdkörper im Nahen Osten. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die vollständige Rückgabe der besetzten Gebiete würde Israel einen dauerhaften Frieden mit den Palästinensern ermöglichen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die fortgesetzte Gewalt der Israelis und Palästinenser vertieft die Kluft zwischen den beiden Gesellschaften und führt zu einer Radikalisierung auf beiden Seiten. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Palästinenser führen einen legitimen Befreiungskrieg gegen die israelische Besatzung. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Was die Israelis den Palästinensern antun, ähnelt dem, was die Nazis den Juden angetan haben. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Ein Mehr an Nachgiebigkeit würde den Palästinensern einen dauerhaften Frieden mit Israel ermöglichen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| So lange Israel den Konflikt (nur) mit militärischen Mitteln zu kontrollieren versucht, wird seine Bevölkerung einer ständigen Bedrohung durch palästinensische Gewalt ausgesetzt sein. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Israel ist allein schuldig an der Entstehung und Aufrechterhaltung der Konflikte im Nahen Osten. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Der israelische Staat muss zur Anerkennung der Rechte der Palästinenser gezwungen werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Israelis sind Besatzer und haben in den Palästinensergebieten nichts zu suchen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Israel ist ein Staat, der über Leichen geht. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Mit Konsequenz und militärischer Stärke kann die Existenz Israels langfristig gesichert werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Es sollte von allen Beteiligten darauf hingearbeitet werden, dass die Israelis in eine angstfreie und friedliche Zukunft blicken können. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn die palästinensische Führung die Gewalt nicht unterbindet, wird den Palästinensern die Gründung eines eigenen Staates nicht gewährt werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Das Ziel der israelischen Politik ist die fortgesetzte Unterdrückung und Entrechtung der Palästinenser. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die palästinensische Führung ist zu Kompromissen nicht bereit und versucht, ihre Maximalziele ohne Rücksicht auf Verluste durchzusetzen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Israelis sind an einer friedlichen Lösung des Nahost-Konfliktes interessiert. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

| | Das lehne ich voll ab | Das lehne ich eher ab | Weder ..., noch | Dem stimme ich eher zu | Dem stimme ich voll zu | Weiß nicht |
|---|--------------------------------|--------------------------------|--------------------------|---------------------------------|---------------------------------|--------------------------|
| Durch konsequenter bewaffneten Widerstand kann ein palästinensischer Staat erzwungen werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Es wäre besser, wenn die Juden den Nahen Osten verlassen würden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Wenn sie den Nahen Osten verlassen (müssen), sollten die aus Deutschland emigrierten Juden hierher zurückkehren. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Ein Kompromiss mit Israel würde den Ausverkauf der palästinensischen Interessen bedeuten. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die Bundesregierung sollte Druck auf Israel ausüben, damit es seine Palästina-Politik ändert. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Es sollte von allen Beteiligten darauf hingearbeitet werden, dass die Palästinenser ein friedliches und selbstbestimmtes Leben führen können. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Eine Lösung des israelisch-palästinensischen Konfliktes muss die Lebensbedürfnisse beider Bevölkerungen berücksichtigen. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Die palästinensische Führung muss zur Anerkennung Israels gezwungen werden. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Das Ziel der palästinensischen Führung ist die Zerstörung Israels. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Israels Militäroperationen gegen die Palästinenser sind maßlos und ungerechtfertigt. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

4. Fragen zur öffentlichen Auseinandersetzung um Israelis, Palästinenser, Juden und Araber

In der öffentlichen Auseinandersetzung über den israelisch-palästinensischen Konflikt spielen mitunter auch Vorurteile hinein. Der Konflikt erhitzt ja auch bei uns die Gemüter. Im letzten Teil unseres Fragebogens finden Sie nun eine Reihe von Aussagen, die in diesem Meinungsstreit geäußert werden könnten und zum Teil über den Konflikt selbst hinausgehen. Versuchen Sie, sich in die Rolle eines Experten zu versetzen. Wie würden Sie diese Aussagen dann einschätzen? Als sachlich rechtfertigbar oder als unbegründetes Vorurteil?

| | Vorurteil | Eher Vorurteil | Teils... teils | Eher rechtfertigbar | Recht-fertigbar |
|---|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Die Hamas ist eine terroristische Organisation, mit der man nicht verhandeln darf. | <input type="checkbox"/> |
| Die Palästinenser sind unfähig, ihre eigenen Angelegenheiten zu regeln. | <input type="checkbox"/> |
| Die Juden haben auf der Welt zu viel Einfluss. | <input type="checkbox"/> |
| Über die Juden sollte man besser nicht sprechen. | <input type="checkbox"/> |
| Der Zionismus hat aus den Opfern von gestern die Täter von heute gemacht. | <input type="checkbox"/> |
| So mancher Jude zieht aus dem Holocaust heute seinen Vorteil. | <input type="checkbox"/> |
| Ohne die weltweite Macht des Judentums könnte sich Israel nicht so einfach über internationales Recht hinwegsetzen. | <input type="checkbox"/> |
| Man darf ja nicht sagen, was man über die Juden wirklich denkt. | <input type="checkbox"/> |

| | Vorurteil | Eher Vorurteil | Teils..., teils | Eher rechtfertigbar | Rechtfertigbar |
|---|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Die islamistischen Terroristen werden von den Palästinensern als Helden verehrt. | <input type="checkbox"/> |
| Wichtige Positionen in Staat und Wirtschaft sollten (besser) nicht mit Juden besetzt werden. | <input type="checkbox"/> |
| Wir sollten uns von den Juden nicht weiterhin unter Druck setzen lassen, die Palästina-Politik Israels unwidersprochen hinzunehmen. | <input type="checkbox"/> |
| Die Palästinenser sind rückständig und primitiv. | <input type="checkbox"/> |
| Der islamische Terrorismus findet starken Rückhalt bei den Muslimen auf der ganzen Welt. | <input type="checkbox"/> |
| Das Ziel des Zionismus war es schon immer, die Palästinenser zu vertreiben und sich ihr Land anzueignen. | <input type="checkbox"/> |
| Die deutsche Bevölkerung hat eine besondere Verantwortung gegenüber den Juden. | <input type="checkbox"/> |
| Der Holocaust ist den Juden ein willkommenes Mittel, um die Politik Israels zu rechtfertigen. | <input type="checkbox"/> |
| Die Juden haben einfach etwas Eigentümliches an sich und passen nicht so recht zu uns. | <input type="checkbox"/> |
| Es wird immer nur von der Judenverfolgung geredet. Wie die Deutschen gelitten haben, sagt keiner. | <input type="checkbox"/> |
| Der Zionismus ist im Grunde genommen eine Spielart des Rassismus. | <input type="checkbox"/> |
| Durch das Anwachsen der islamischen Bevölkerung fühlt man sich zunehmend als Fremder im eigenen Land. | <input type="checkbox"/> |
| „Mir ist das ganze Thema „Juden“ irgendwie unangenehm.“ | <input type="checkbox"/> |
| Die Juden sind selber schuld, dass man sie nicht mag. | <input type="checkbox"/> |
| Man sollte endlich mit dem Gerede über unsere Schuld gegenüber den Juden Schluss machen. | <input type="checkbox"/> |
| Wenn man das wahre Gesicht der Juden erkennen will, muss man nur schauen, wie sie mit den Palästinensern umgehen. | <input type="checkbox"/> |
| Der Islam ist eine intolerante Religion. | <input type="checkbox"/> |
| Jahrzehnte nach Kriegsende sollten wir nicht mehr so viel über die Judenverfolgung reden, sondern endlich einen Schlussstrich unter die Vergangenheit ziehen. | <input type="checkbox"/> |
| Es ist besser, mit Juden nichts zu tun zu haben. | <input type="checkbox"/> |
| Die Sicherung der Vormachtstellung in der Welt ist ein wichtiges Ziel des Judentums. | <input type="checkbox"/> |
| Hätten sich die Juden unter Hitler stärker gewehrt, wären nicht so viele umgekommen. | <input type="checkbox"/> |
| Juden sind alle irgendwie gleich. | <input type="checkbox"/> |
| Die Juden sollten sich nicht dort hineindrängen, wo man sie nicht haben will. | <input type="checkbox"/> |
| Es ist das oberste Ziel des Islam, weltweit die Scharia (islamisches Recht) einzuführen. | <input type="checkbox"/> |
| Es gibt ein jüdisches Netzwerk, das politische und ökonomische Prozesse in der Welt entscheidend beeinflusst. | <input type="checkbox"/> |

| | Vorurteil | Eher Vorurteil | Teils..., teils | Eher rechtfertigbar | Rechtfertigbar |
|--|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Ohne die Mithilfe der Bevölkerung hätte Hitler die Judenverfolgung nicht ins Werk setzen können. | <input type="checkbox"/> |
| Die Juden sind unversöhnlich und schaden Deutschland, wenn sie immer wieder mit dem Finger auf den Holocaust zeigen. | <input type="checkbox"/> |
| Der Islam ist mit Demokratie nicht vereinbar. | <input type="checkbox"/> |
| So wie sich die Juden aufgeführt haben, kann man verstehen, dass sie damals verfolgt wurden. | <input type="checkbox"/> |
| Mit Juden sollte man keine Geschäfte machen. | <input type="checkbox"/> |
| Den Palästinensern kann man nicht vertrauen. | <input type="checkbox"/> |

Abschließend haben Sie Raum für Anmerkungen oder Kritik jeglicher Art, zum Beispiel zum Fragebogen oder zu konkreten Fragen. Wenn der Platz nicht reicht, schreiben Sie bitte auf der Rückseite weiter.

Herzlichen Dank für Ihre Teilnahme!

Hoffentlich war das Ausfüllen dieses Fragebogens interessant für Sie. Wir würden uns freuen, wenn Sie sich bereit erklären, an einer weiteren Untersuchung teilzunehmen, die sich mit einem ähnlichen Thema beschäftigt. Hier bekommen Sie dann auch die Gelegenheit, Fragen zu diesen Studien zu stellen.
